Questions to ask at every wholesaler

- Is this item available every day? Which brand sells the most here?
- What is your rate for 1 piece, and for 5 / 10 pieces (or a full box)?
- Loose items (rice, daal, sugar): rate per kg today, and how often it changes.
- Can you give credit for a week? Do you deliver to us, and by what time?
- Which items are going out of stock often? Which new items are in demand?

12. Raw chicken (fresh meat)

Chicken is sold by weight and the rate changes every day. Shops usually quote the **live bird rate** per kg; the **cleaned meat** you get is less than the live weight, so its rate per kg is higher. Always ask for the cleaned (dressed) meat rate.

#	Cut / type	Pack	Note	Live rate Rs/kg	Meat rate Rs/kg	Our price Rs	Shop / notes
1	Broiler - curry cut (with bone, skinless)	500 g, 1 kg	Most common. Pieces for curry.				
2	Broiler - curry cut with skin	500 g, 1 kg	Some people prefer with skin.				
3	Broiler - boneless	500 g	Higher price per kg.				
4	Broiler - whole bird (cleaned)	per piece (~1-1.5 kg)	Price per kg of dressed meat.				
5	Leg pieces / drumsticks	500 g	Only if the shop sells separately.				
6	Liver / gizzard	250 g	Cheap; some customers ask.				
7	Desi (country) chicken - curry cut	500 g, 1 kg	Much costlier; ask daily availability.				

Ask the chicken supplier

• Today's live rate and cleaned meat rate per kg. How much does it change week to week?
• Can you cut to order (curry cut / boneless) and pack 500 g and 1 kg? Any cutting charge?
• Can you keep our day's order ready by a fixed time (e.g. 4 PM) every day?
• Minimum quantity per day? Can we pay daily or weekly?
• Is the meat fresh that day? Where are the birds from?

Before selling chicken (important)

• **Licence:** selling meat needs FSSAI registration / licence covering meat. Check before launch.
• **Cold chain:** keep it cold (fridge / ice box) from shop to door; deliver the same evening.
• **Pack separately:** sealed bag, never mixed with groceries in the same bag.
• **Pre-order only:** buy only what is ordered by the cut-off time, so nothing is wasted.
• **Daily price:** the rate changes daily, so update the price in Admin → Products every morning.
• **Weight:** say "approx. 500 g" and weigh in front of the customer if asked.
